

To whom it may Concern

12 September 2014

Case 14/04190

/morlar

The Danish Business Authority is the competent authority in Denmark on dual-use goods and technology. We hereby confirm that a technical assessment carried out by the Danish Ministry of Defence shows that the following products from PR Electronics ApS:

- Temperature Transmitters, 5300A series

are not covered by dual-use export control rules. The products have been assessed against the following EU Regulations:

- EU Regulation No 428/2009 as amended by Regulation No. 388/2012,
- EU Regulation No 267/2012 on restrictive measures against Iran,
- EU Regulation No 1263/2012 on restrictive measures against Iran,
- EU Regulation No 509/2012 on restrictive measures against Syria.

This implies that no dual-use license is required for the export of the above mentioned products.

This statement does not exempt PR Electronics ApS from the obligation to observe and comply fully with any applicable export control laws and regulations in force.

Yours sincerely

Morten Elbjørn Larsen
Head of Section
