

Arduino shield

5824

- User interface possibilities for Arduino MEGA 2560 platform
-

Application

- The PR5824 is an Arduino shield which facilitates a number of user interface possibilities for Arduino MEGA 2560 platform, e.g. 8 push buttons, 8 LEDs, buzzer, accelerometer, temperature measurement and interrupts.
- The PR5824 is intended for educational use for undergraduate students (bachelor students).
