

Shunt resistor 0.2 Ω

7029

- 0.2 Ω , $\pm 1\%$, 20 W
- Max. working voltage: 550 Volt
- Connection: solder terminals

Application

- External shunt resistor in connection with the universal AC/DC transmitter type 4179 or trip amplifier type 2231.

Load

- 12.5 W without heat sink.
- 25 W with 535 cm² x 1 mm heat sink.
