

To whom it may concern

As manufacturer: PR electronics A/S
Lerbakken 10
DK-8410 Roende, Denmark

During 2025, PR electronics A/S had a formal assessment regarding export compliance / dual use performed by the Danish Authorities on one of our more complex products (5437Ex), representing all our product range. A similar assessment has been performed by the US Authorities with the same result.

See official document from the Danish Authorities and the US Authorities.

Our products are assessed NOT to be Dual-Use and therefore do not require an export license, but our EX-products are categorized in the "Catch-All" category. For PR electronics products, the following applies:

Products	AL number (EU)	ECCN (US)	Country of origin	Manufacturer
PR products	N (None)	EAR99 / NLR	EU (Denmark)	PR electronics A/S
Commercial catalogues/ certificates			EU (Denmark)	PR electronics A/S

EU - EX products – Catch-All category requirements

Due to the Catch-all classification of our Ex products, it is very important for us, all of our distributors and any customer exporting PR electronics Ex products to ensure that neither our customers nor the actual end-user (final recipient of the products) intends to use the product for military-, nuclear explosive-, chemical-, biological- and/or nuclear weapons or missiles capable of delivering such weapons.

Additionally, a check must be performed to ensure that the end customer or organization is not listed on any of the official lists in the US or EU.

The end-user statement covers information pertaining to the end-user, destination and intended use of the products. The end user statement is to ensure that:

1. the Products will only be used for civil end-uses and not for any military end-uses.
2. the Products or any replica thereof are intended for final use in (country).
3. the Products or any replica thereof will not be used in any nuclear explosive activity or unsafeguarded nuclear fuel-cycle activity.
4. the Products or any replica thereof will not be used for any purpose connected with chemical or biological or nuclear weapons, or missiles capable of delivering such weapons.
5. the Products or any replica thereof will not be used for any purposes connected with human rights violations.
6. the Products are for sale to bona fide civil customers for civil use in (country). It will be held in stock against future orders.

Denmark - Roende, 10th of June 2025

Lars Henrik Kahr
Head of Group QHSE, Product Approvals & CSR
