

Certificate

PR Electronics A/S

is certified

Sustainable Business Partner

As Sustainable Business Partner (SBP) the company has demonstrated the capacity to work with sustainability and social responsibility (CSR) and that the CSR capacity has been formalized in the form of a CSR programme for the company in question.

To demonstrate the CSR capacity 2 employees from the company have completed Green Network's CSR training modules: Basis, Analysis, and Strategy. Furthermore, they each have completed a measurement of CSR capacity with satisfactory results. Thereby, the 2 employees have obtained individual certification as Sustainable Business Professionals, which validates the company's ability to utilise recognised tools and methods for organising CSR activities in the company.

The certified company in question must present a CSR programme consisting of at least the following compulsory elements: Baseline, Stakeholder Analysis, Materiality Analysis, GAP analysis, CSR strategy, and Action Plans.

Green Network is a business network and consultancy that works towards enhancing companies' capacity to work with sustainability and social responsibility.

The company is receiving the certificate for the 1st time

Issued on: 25 June 2019

Valid Until: 25 June 2021
